

VIDEO BALUN Series

ITEM NO.: VF100BNC

VF100BNC Coaxial BALUN For DVR

- BNC male to BNC female with mini cable 15 on both sides.
- Perfect work with DVR to immunity DVR interference.
- Built in a highly balanced mode of video transmission, which is immune to interference from these, and other sources of noise: Data signals, other video signals, nearby power, ringing telephones, fluorescent lights, transformers, and more...

Application and Installation:

Add VF100BNC on video receive side (Front of Monitor or DVR) to immunity the Interference, which caused by mismatch of Impedance Matching.

If there is still some noise, Then use monitor to check each connecting point (between two wire connection), to find out where is the source of interference, then add one more VF100BNC to compensate the Impedance Matching for clear video Image. If you are not able to check where is the source of interference, then add VF100BNC on all of wire connection and camera.
